

NOTE:
The software is created and maintained by Alain Turbide
See <https://github.com/Dilbert66/esphome-vistaECP>
for software, setup instructions, etc

NOTE: some D1 mini modules have the headers on the top side.
Make sure the 5VDC is on the bottom right.

Pinout:

ECP 4-wire interface
for Honeywell (Ademco) Alarm Panels
such as Vista 20P

Based on a modified (by Andrew Selle : eselle) version
of Alain Turbide : Dilbert66's original schematic
